

Revised Notice

Sub: Pre-bid conference and clarification thereof in NIT No. 17 of 2011 dated- 28.04.2011 for Supply, Installation and Commissioning of CCTV Surveillance System to J&K Police.

Pursuant to various clarifications having been sought by different intending tenderers, regarding the subject NIT, a pre- bid conference was conducted in Police Hqrs J&K Srinagar on 4-06-2011. As many as 11 prospective tenderers participated in the said conference and sought clarifications which were replied instantly. The gist of the clarifications so made is re-produced hereunder for general information of tenderers:

1. **Payment Clause/ Cash flow pattern:** Part Payment will be allowed subject to installation and commissioning of CCTV Surveillance Camera systems in phase wise manner, details where-of to be spelled out in the supply order, including force majeure clause.
2. **No of Trainees to be Trained:** Approved supplier firm to impart training to the handler officials centrally at two places viz Jammu and Srinagar and training not to be imparted individually.
3. **EMD:** Tenderers to furnish EMD either at 2% of the total value of the contract or Rs. 15.00 lacs in lump sum, which ever is less, only in the shape of CDR/FDR and **not BG**.
4. **Camera Specification and compatibility with existing system:**
Quoted cameras have to be compatible with the existing GE Cameras by means of VMS (Video Management System) i.e the quoted VMS should be able to run the existing GE Camera.
5. **10 KVA oil based servo transformer:** To be oil coolant, servo based with 90 volts as minimum input voltage.
6. **UPS 600 VA with one hour back up:** UPS has to be custom designed as per the specifications given in NIT.
7. **Technical Specifications of Computers:** The intending tenderers to quote as per their system requirements and the desk top quoted should be OEM.

8. **Back Up Connectivity with different Districts:** Hardware of existing 2mbps lease line (MLLN) already provided and is functional in each District. At each monitoring station a static IP address will be given to the successful bidder for connectivity with 2mbps MLLN.
9. **16 GB off line storage:** The cameras sites should be having a provision of storing 16 GB of video data so that in case wireless link is down with the monitoring station, the data can be retrieved as soon as the link is re-established.
10. **Exact Location of Camera Sites:** To be given to successful bidder only, for security reasons.
11. **Tower Heights:** RF towers to be treated as 120 ft only instead of 140 feet mentioned in the NIT. However rates to be quoted per feet.

All other terms and conditions of the above NIT shall remain unchanged and clarifications given above shall be treated as amendment to the main NIT wherever applicable.

DIG (Admn) PHQ
For Director General of Police,
J&K- Srinagar.
